

Libri di Teoria della Computabilità (Paradigma di Turing)

Introduttivi

Cooper S. B. (2003). *Computability Theory*. Chapman & Hall/CRC Mathematics, Boca Raton, London, New York, Washington, DC.

Cutland N. J. (1980). *Computability: An Introduction to Recursive Function Theory*. Cambridge University Press, Cambridge.

Davis M. (1965). *The undecidable. Basic Papers on Undecidable Propositions, Unsolvability Problems and Computable Functions*. Raven Press, Hewlett, N.Y.

Davis M. (1982). *Computability and Unsolvability*. Dover, New York.

Epstein R. L.; Carnielli W. A. (2000). *Computability: Computable Functions, Logic, and the Foundations of Mathematics*. Wadsworth, Stamford, CT, London, Singapore, Ontario, second edizione.

Frixione M.; Palladino D. (2004). *Funzioni, Macchine, Algoritmi. Introduzione alla Teoria della Computabilità*. Carocci, Roma.

Hermes H. (1965). *Enumerability; Decidability; Computability: An Introduction to the Theory of Recursive Functions*. Springer-Verlag, Heidelberg. Italian Translation: Enumerabilità, Decidibilità, Computabilità : Introduzione alla Teoria delle Funzioni Ricorsive. Boringhieri, Torino, 1975.

Kleene S. C. (1952). *Introduction to Metamathematics*. Van Nostrand, Princeton.

Minsky M. (1967). *Computation: Finite and Infinite Machines*. Prentice Hall, Englewoods Cliffs.

Péter R. (1967). *Recursive Functions*. Academic Press, New York.

Rogers, Jr. H. (1967). *Theory of Recursive Functions and Effective Computability*. McGraw-Hill, New York. Traduzione Italiana: Teoria delle Funzioni Ricorsive e della Computabilità Effettiva, Milano, Tecniche Nuove, 1992.

Shen A.; Vershchagin N. K. (2003). *Computable Functions*, volume 19 di *Student Mathematical Library*. American Mathematical Society, Providence, RI.

Shoenfield J. R. (2001). *Recursion Theory*. A K Peters, Wellesley, MA.

Soare R. I. (1987). *Recursively Enumerable Sets and Degrees*. Perspectives in Mathematical Logic, Omega Series. Springer-Verlag, Heidelberg.

Libri Avanzati, o Monografie Specialistiche

Ershov Y. L.; Goncharov S. S.; Marek V. W.; Nerode A.; Remmel J. B., (A cura di) (1998). *Handbook of Recursive Mathematics, Vol. I*, volume 138 di *Studies in Logic and the Foundations of Mathematics*. Elsevier, Amsterdam. (V. W. Marek, Ass. Editor).

Ershov Y. L.; Goncharov S. S.; Marek V. W.; Nerode A.; Remmel J. B., (A cura di) (1999). *Handbook of Recursive Mathematics, Vol. II*, volume 139 di *Studies in Logic and the Foundations of Mathematics*. Elsevier, Amsterdam. (V. W. Marek, Ass. Editor).

Griffor E. R., (A cura di) (1999). *Handbook of Computability Theory*, volume 140 di *Studies in Logic and the Foundations of Mathematics*. North-Holland, Amsterdam.

Odifreddi P. (1989). *Classical Recursion Theory (Volume I)*, volume 125 di *Studies in Logic and the Foundations of Mathematics*. North-Holland, Amsterdam.

Odifreddi P. (1999). *Classical Recursion Theory (Volume II)*, volume 143 di *Studies in Logic and the Foundations of Mathematics*. North-Holland, Amsterdam.

Generalizzazioni della Teoria della Computabilità

Barwise J. (1975). *Admissible Sets and Structures*. Springer-Verlag, Heidelberg.

Chong C. T. (1984). *Techniques of admissible recursion theory*, volume 1106 di *Lecture Notes in Mathematics*. Springer-Verlag, Berlin.

Sacks G. E. (1990). *Higher Recursion Theory*. Perspectives in Mathematical Logic. Springer-Verlag, Heidelberg.

Gerarchie

Ash C. J.; Knight J. (2000). *Computable structures and the Hyperarithmetical Hierarchy*, volume 144 di *Studies in Logic and the Foundations of Mathematics*. North-Holland Publishing Co., Amsterdam.

Hinman P. G. (1978). *Recursion-Theoretic Hierarchies*. Perspectives in Mathematical Logic, Omega Series. Springer-Verlag, Berlin, Heidelberg, New York.

Kechris A. S. (1995). *Classical Descriptive Set Theory*, volume 156 di *Graduate Texts in Mathematics*. Springer-Verlag, Heidelberg.

Mansfield R.; G. W. (1985). *Recursive Aspects of Descriptive Set Theory*, volume 11 di *Oxford Logic Guide*. Oxford University Press, Oxford.

Moschovakis Y. (1974). *Elementary Induction on Abstract Structures*, volume 77 di *Studies in Logic and the Foundations of Mathematics*. North Holland and American Elsevier Publishing Company, Inc., Amsterdam and London, and New York.

Moschovakis Y. (1980). *Descriptive Set Theory*. North Holland, Amsterdam.

Riducibilità e Strutture di Gradi

Cooper S. B.; Sorbi A. (to appear). *Computing with Incomplete Information: The Mathematics of Enumeration and Positive Reducibilities*. World Scientific Publishing, Singapore.

Epstein R. (1979). *Degrees of Unsolvability: Structure and Theory*, volume 759 di *Lecture Notes in Mathematics*. Springer-Verlag, Heidelberg.

Lerman M. (1983). *Degrees of Unsolvability*. Perspectives in Mathematical Logic. Springer-Verlag, Heidelberg.

Sacks G. E. (1963). *Degrees of Unsolvability*, volume 55 di *Annals of Mathematical Studies*. Princeton University Press, Princeton.

Shoenfield J. R. (1971). *Degrees of Unsolvability*. North-Holland, Amsterdam.

Applicazioni: Randomness, Learning Theory, Informatica

Calude S. C. (2002). *Information and Randomness. An algorithmic Perspective*. Text in Theoretical Computer Science. An EATCS Series. Springer-Verlag, Berlin, Heidelberg, New York, second, revised and extended edizione.

Chaitin G. J. (1987). *Algorithmic Information Theory*. Cambridge University Press, Cambridge.

Chaitin G. J. (1992). *Information-Theoretic Incompleteness*. World Scientific, Singapore.

- Downey R.; Hirschfeldt D. R. (2006). *Algorithmic Randomness and Complexity*. Springer-Verlag New York, Inc., Secaucus, NJ, USA.
- Gasarch W. I.; Martin G. (1999). *Bounded Queries in Computability Theory*. Progress in Computer Science and Applied Logic. Birkhäuser, Boston.
- Goodstein R. L. (1961). *Recursive Analysis*. North-Holland, Amsterdam.
- Jain S.; Osherson D.; Royer J. S.; Sharma A. (1999). *Systems that learn. An Introduction to Learning Theory*. MIT Press, Cambridge, USA, second edizione.
- Li M.; Vitanyi P. M. B. (2008). *An Introduction to Kolmogorov Complexity and Its Applications*. Springer-Verlag, third edizione.
- Nies A. (2009). *Computability and Randomness*. Oxford University Press, Oxford.
- Normann D. (1980). *Recursion on the Countable Functionals*. Lecture Notes in Mathematics. Springer, Berlin.
- Pour-El M. B.; Richards J. I. (1989). *Computability in Analysis and Physics*. Springer-Verlag, Berlin, Heidelberg, New York, London, Paris, Tokyo.
- Weihrauch K. (2000). *Computable Analysis: An Introduction*. Springer-Verlag, Berlin, Heidelberg, New York, London, Paris, Tokyo.

Altri libri di Chaitin

- Chaitin G. J. (1990). *Information, Randomness and Incompleteness: Papers on Algorithmic Information Theory*. World Scientific, Singapore, second edizione.
- Chaitin G. J. (1998). *The Limits of Mathematics*. Springer-Verlag, Singapore.
- Chaitin G. J. (1999). *The Unknowable*. Springer-Verlag, Singapore.
- Chaitin G. J. (2001). *Exploring Randomness*. Springer-Verlag, London.
- Chaitin G. J. (2002). *Conversations with a Mathematician*. Springer-Verlag, London.
- Chaitin G. J. (2005). *Meta Math!: The Quest for Omega*. Pantheon, New York. Italian Translation: Alla Ricerca di Ω , Adelphi, 2007.
- Chaitin G. J. (2006). *Teoria Algoritmica della Complessità*. G. Giappichelli, Torino.
- Chaitin G. J. (2007). *Thinking About Gödel And Turing - Essays on Complexity, 1970-2007*. World Scientific, Singapore.

Libri di Logica Matematica, con una buona introduzione alla Teoria della Computabilità

Barwise J. (1977). *Handbook of Mathematical Logic*. North-Holland, Amsterdam.

Bell J.; Machover M. (1977). *A Course In Mathematical Logic*. North-Holland, Amsterdam.

Boolos G. S.; Burgess J. P.; Jeffrey R. C. (2002). *Computability and Logic*. Cambridge University Press, Cambridge, fourth edizione.

Ebbinghaus H. D.; Flum J.; Thomas W. (1996). *Mathematical Logic*. Undergraduate Texts in Mathematics. Springer, Berlin, Heidelberg, New York, second edizione.

Enderton H. (2001). *A Mathematical Introduction to Logic*. Academic Press, Boston, second edizione.

Hinman P. G. (2005). *Fundamentals of Mathematical Logic*. A K Peters Ltd.

Manin Y. I. (1977). *A Course in Mathematical Logic*. Springer.

Mendelson E. (1997). *Introduction to Mathematical Logic*. Chapman & Hall, London, fourth edizione. Italian Translation: *Introduzione alla Logica Matematica*, 2002.

Shoenfield J. R. (2001). *Mathematical Logic*. A K Peters.

Storia e un po' di Filosofia

Copeland J. (2005). *Alan Turing's Automatic Computing Engine*. Oxford University Press, Oxford.

Davis M. D. (2000). *The Universal Computer: The Road from Leibniz to Turing*. W.W. Norton, New York, London. in paperback: *Engines of Logic: Mathematicians and the Origins of the Computer*.

Herken R., (A cura di) (1994). *The Universal Turing Machine: a Half-Century Survey*. Springer-Verlag, Berlin, Heidelberg, New York, London, Paris, Tokyo, second edizione.

Hodges A. (1992). *Alan Turing: The Enigma*. Random House, Vintage, London.

Leavitt D. (2006). *The Man Who Knew too Much: Alan Turing and the Invention of the Computer*. Great Discoveries Series. W. W. Norton, New York.

Penrose R. (1989). *The Emperor's New Mind: Concerning Computers, Minds, and the Laws of Physics*. Oxford University Press, Oxford. Italian Translation: *La mente Nuova dell'Imperatore*, BUR Rizzoli, 2000.

- Penrose R. (1994). *Shadows of the Mind*. Oxford University Press, Oxford. Italian Translation: *Ombre della Mente*. Alla Ricerca della Coscienza, Rizzoli, 1996.
- Petzold C. (2008). *The Annotated Turing: A Guided Tour Through Alan Turing's Historic Paper on Computability and the Turing Machine*. Wiley, Hoboken.
- Post E. L. (1994). *Solvability, Provability, Definability: The collected Works of Emil Post*. Birkhäuser, Boston, Basil, Berlin.
- Sacks G. E., (A cura di) (1999). *Selected Logic Papers*. World Scientific, Singapore.
- Teuscher C., (A cura di) (2004). *Alan Turing: Life and Legacy of a Great Thinker*. Springer-Verlag, Berlin, Heidelberg, New York.
- Turing A. M. (2001). *Collected Works: Mathematical Logic*. Elsevier, Amsterdam, New York, Oxford, Tokyo.
- Wang H. (1981). *Popular Lectures on Mathematical Logic*. Van Nostrand Reinhold Company and Science Press, New York.

Teoria della Computazione, con una buona introduzione alla Teoria della Computabilità

- Anderson J. A. (2006). *Automata Theory with Modern Applications*. Cambridge University Press, Cambridge.
- Börger E. (1989). *Computability, Complexity, Logic*, volume 128 di *Studies in Logic and the Foundations of Mathematics*. North Holland, Amsterdam, New York, Oxford, Tokio.
- Brainerd W. S.; Landweber L. H. (1974). *Theory of Computation*. Wiley, Hoboken.
- Calude C. S. (1988). *Theories of Computational Complexity*. North-Holland, Amsterdam.
- Davis M.; Sigal R.; Weyuker E. J. (1994). *Computability, Complexity, and Languages*. Academic Press, San Diego, second edizione.
- Hein J. L. (1996). *Theory of Computation*. Jones and Bartlett, Sudbury.
- Hopcroft J. E.; Ullman J. D. (1979). *Introduction to Automata Theory, Languages, and Computation*. Reading, Massachusetts.
